

I appreciate the clarity of the WI No Call List and what it has accomplished for my family. Prior to the WI No Call List, our family phone number would receive at least two non-solicited calls each evening. It was not uncommon to return home from work to find a number of unsolicited messages on our answering machine. What angered me the most about these unsolicited calls is that while politely telling the caller we were not interested, the pitch would continue from another angle. To add, we no longer receive phone calls where the caller hangs up upon our answer. I strongly believe in what the WI No Call List has achieved for my family: peaceful family time and insurance in a respectable and polite demeanor of conducting business. PLEASE DO NOT TAMPER WITH THIS.
